FROM:
Acting Director, Office of Policy and Planning

SUBJECT: Identification of Glossaries

1. As part of its current task, the Intelligence Definitions Working Group is compiling an index of those dictionaries or glossaries extant which contain intelligence terms. It would be most helpful if you would identify any such glossaries which pertain to your function, to include a descriptive sentence or two about the purpose and use in each case.

2. Please call if you have any questions about this requirement. Thank you for your help.
